

## HONEST BUILDINGS CUSTOMER STORY

### GEORGE COMFORT & SONS

90 years of experience as property owners and managers

**DAN DILMANIAN**  
DIRECTOR OF ASSET MANAGEMENT

“Honest Buildings is our system of record for capital and tenant improvement projects where

we track costs in the same place we track jobs, **giving our team much more time to focus on asset value creation** instead of spending time on administrative data entry.

As our team members began to use the platform with a **new integration activated with MRI, our accounting system, I received feedback that it was ‘priceless’** because they now have all they need at a glance instead of having to search through emails and shared drives for data.

Also **having access to our historical job cost information in Honest Buildings has been extremely valuable** in that we’re able to pull up the costs, vendors and details about all of our past projects to use going forward to **predict pricing for budgeting.**”
