

Streamline Your Approvals Process

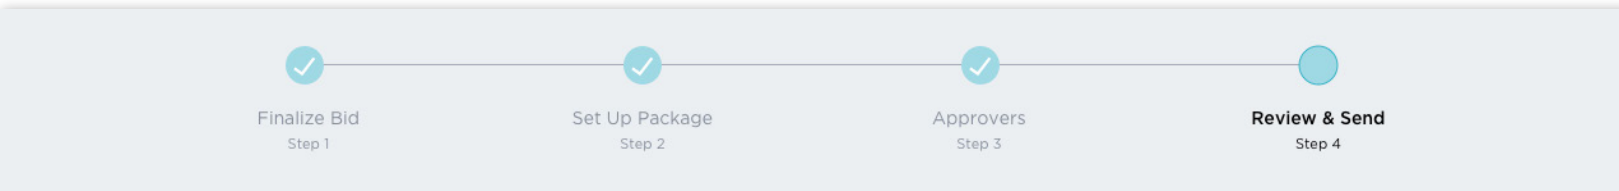

FOR PROJECTS, INVOICES AND CHANGE ORDERS

With Honest Buildings' automated approvals workflow, your team can be more efficient and more informed than ever before. Now everyone—project managers, asset managers, accountants and vendors—can submit and review all project cost information in one central, digital location. The approvals workflow is customized to your organization so existing rules around pricing thresholds and sign offs can be mapped directly into Honest Buildings.

REAP THE BENEFITS OF AUTOMATED APPROVAL WORKFLOWS

- **Reduce time to final approval.** Get emails and in-app notifications immediately when your approval is requested, if a project is rejected and when it is fully approved.
- **Stay informed and organized.** Monitor an approval's progress through the authorization chain, review relevant documents and reject unsatisfactory submissions from dedicated approval pages.
- **Avoid overspend and mitigate vendor error.** Receive alerts when a bid or change order submitted by a vendor pushes the project costs over budget.
- **Keep project schedules on track.** Minimize delays in moving work forward and getting vendors paid.
- **Easily audit past decisions.** Quickly identify when and why certain approvals were approved or rejected, and by whom.
